

## Whiteriver Unified School District, #20

### RFP 20-01-25 E-Rate Communications Amendment # 1

963 S Chief Avenue  
Whiteriver, AZ 8941

---

#### Question asked:

Could you please clarify the service delivery address for Internet access?

#### WUSD Response:

WUSD is seeking Internet Bandwidth delivery to all sites listed on the RFP. The primary demarcation point is WUSD – District Office. Most of the time, the transport to the schools will be done using WUSD internal fiber network. In the event of a failure of the WUSD network, the provider is expected to deliver Internet Access to the School gateway.

#### *Hypothetic scenario:*

*WUSD selected a 400Mbps service.*

*During normal operation, the 400Mbps is fully delivered at the WUSD – District Office.*

*However, on Monday, a fire damages fiber between WUSD – District Office and Cradleboard School.*

*At that point, 300Mbps is delivered to the WUSD – District Office and 100Mbps is delivered to the Cradleboard School.*

The listed addresses below are just informative. Because of the area, addresses are not reliable. Please use tools such as Google Earth or a site walk to verify.

WUSD – District Office  
963 South Chief Avenue  
Whiteriver, AZ 85941

Cradleboard Elementary School
