Workshop Title: Internet Security
Objective: Take some practical steps to improve your security practices with your email and Internet use.

Intro Activity: Survey- What is the biggest security threat to a school computer?

Presentation: Internet Security Power Point (90 minutes)
Make sure that each participant in the workshop has a copy of the power point presentation *Internet Security* on their work station and saved to their roaming profile documents or has the browser version from the WUSD website open. If you choose, you can have everyone follow you on the projector screen (a larger class) or you can have participants work individually.

During the workshop email each of the participants the following message:

> Dear Participant in the Classroom Newsletter Workshop:
>
> This is a reminder that you must reply to this email within 7 days in order to receive your certificate for this workshop.
>
> In your reply you need to list 5 things that you think are most important for you to do to improve your security on the Internet.
>
> Please also specify whether you would like me to email your certificate or send it by district mail.
>
> Thank You,

Practice Activity: (30 minutes)
Complete the rest of the Power Point presentation on your own.

Assessment: Email 5 things that you think are most important for you to do to improve your security on the Internet.
