# ONLINE REGISTRATION TIPS

- ✚ If you do not have a working email yet, there are many free email providers you can register with. Gmail is the most popular that parents use, but WUSD does not require a specific email provider.
- ✚ If you have no access to a smart phone, computer, tablet, or other Internet enabled device; or have no data or Internet access, please contact your student's school to make arrangements so you can come in to the front office and use complimentary devices and/or free wifi.
- ✚ If you struggle with technology, we will be more than happy to assist you with the registration process.
- ✚ WUSD encourages all parents and guardians to register for the Parent Portal, as it provides access to more than just Online Registration – you will be able to track your student's attendance, grades, discipline, immunizations, schedule, etc., as well as receive school and classroom bulletins and communication.
- ✚ If you are using a smart phone or a tablet and the Student 360 app does not work, please download the newest version of your Operation System (OS) and update your device.
- ✚ Office staff are available to help with any inquiries regarding registration:
