
The **Technology Devices Maintenance** instructional program prepares students to design, development, installation, implementation, use, and management of computers and various computer devices. Students who successfully complete the **Technology Devices Maintenance** program's coherent sequence of instruction will develop effective methods to troubleshooting problems using effective communication skills by asking key questions, listening for technical problems and, in turn, explaining problems in an understandable way.

Throughout the **Technology Devices Maintenance** instructional program, students learn and use appropriate diagnostic tools to assess and diagnose problems on computers, laptops, I-pads, printers and or cellphones. Advanced critical thinking skills will be developed with applied interpersonal relations, life skills, business, economic, and leadership skills as well as workplace employability skills.

COHERENT SEQUENCE:

- Technology Devices Maintenance I**
- Technology Devices Maintenance II**
- Technology Devices Maintenance III**
- Technology Devices Maintenance IV**
