

## Test **Less**. Teach **More**.

Savvas Learning Company offers a complete mathematics solution designed to support students in the K-8 classroom. The combination of our cutting-edge assessments, curriculum, and adaptive intervention provide a pathway to success for each student.

### SAVVAS math Screener & Diagnostic Assessments

Begin the year with our screener and diagnostic, created in partnership with WestEd® and delivered through Savvas Realize™.

- Quickly identify student proficiency of precursor skills with a short, accessible screener.
- The Multistage Adaptive Diagnostic produces norm-referenced results.
- Diagnostic reports pair data with standards-aligned instructional resources.
- Growth reports allow educators to see both the class and individual student performance throughout the year, visually outlining their journey to year-end proficiency.

Teach core instruction with our research-based mathematics solution.

- Engages ALL students in meaningful mathematics.
- Problem-based learning and visual learning deepen conceptual understanding.
- Formative and summative assessments drive differentiated instruction.

Supplement core instruction with effective differentiation and intervention.

- Personalize learning with real-time adaptivity.
- Access up-to-the-minute student growth and mastery data.
- Connects to *enVision® Mathematics* instruction and provides an easy-to-use custom assignment option to enhance core mathematics instruction.

### How They Work Together:

#### Beginning of Year

Identify instructional needs from day 1

#### Throughout the Year

Provide a clear picture of mastery

#### End of Year

Students demonstrate proficiency on state or district assessments
